THE ARCHITECT OF WEALTH & WELLNESS

ABBY NGATHA MUNGAI

Abby Ngatha Mungai is a leading wealth strategist in the financial industry, widely recognized as "The Wealth Wellness Guide."

With a career spanning over two decades, Abby has mastered the delicate alchemy of Accounting, Insurance, and Finance to become a leading voice in global wealth architecture.

Currently, she serves as the Head of Private Wealth Management at a premier investment company in Kenya. In this high-stakes environment, she oversees an expansive portfolio of over KES 15 Billion, commanding a team of nine elite financial advisors. Her leadership is defined by a rare combination of clinical precision and intuitive foresight, ensuring that the capital she manages is not only preserved but positioned for multi-generational impact.

However, Abby's vision extends far beyond the edges of a balance sheet and Boardroom .As the Founder of Wealth Hub Empire, she has spearheaded a movement to redefine prosperity for the modern age. Having already transitioned over 1,000 families from financial anxiety to sovereign freedom, she is now on a relentless mission to impact one million lives through her "Rewire for Wealth" philosophy.

She is the author of the transformative book, Rewire for Wealth: A Step-by-Step Guide to Heal Your Money Story, and the creator of the "Reset, Rewire, Rise" masterclass. This comprehensive five-module program is a masterwork in financial psychology, guiding individuals through the emotional and spiritual healing necessary to sustain high-level wealth. Abby believes that true financial expansion is impossible without nervous system regulation and the clearing of ancestral scarcity imprints.

A spiritual leader who finds her own resonance in music, nature, and the arts, Abby embodies the "Wealth Wellness" she teaches.

She represents a new era of leadership—one where the General Manager and the Healer coexist. For Abby, wealth is not the end goal; it is the fuel for a life defined by peace, creativity, and a legacy that echoes long after the numbers have been tallied.
